

Polyron® Plus

Iron + Folic acid + Vitamin B₁₂

Description

Polyron® Plus is a combined preparation of Iron, vitamin B₁₂ and Folic acid. In Polyron Plus Iron is presented as Iron Polymaltose complex, which contains non-ionic Ferric Iron and Polymaltose in a stable complex. This complex facilitates absorption of the Iron in the mucosa. Iron Polymaltose Complex is better tolerated than conventional Iron preparation. Vitamin B₁₂ and Folic acid are essential for the development and maturation of haemoglobin.

Indications

Polyron® Plus is indicated for the prevention and treatment of Iron, vitamin B₁₂ and Folic acid deficiency. Also indicated for the prevention of Iron deficiency during pregnancy and lactation and as prophylactic therapy of Iron deficiency to cover the recommended daily dietary allowance.

Dosage & administration

Adult: 1-2 capsules daily; as recommended by the physician.

Children: 1 capsule daily; as recommended by the physician.

Infant: As recommended by the physician.

Use in pregnancy and lactation

Polyron® Plus can be used in pregnancy and lactation.

Precautions

Caution should be applied where there is a risk of Iron overload, e.g. Haemochromatosis, Thalassaemia, Haemosiderosis or Haemolytic anaemia.

Side-effects

Generally well tolerated. In individual cases, a few side-effects occur to oral Iron preparation, such as nausea, vomiting, constipation or diarrhoea.

Contra-indications

Contra-indicated in patients with known hypersensitivity to any of its ingredients.

Overdosage

Initially epigastric pain, diarrhea and vomiting can occur of overdose. Metabolic acidosis, convulsions and coma can occur after recovery. In case of overdose an emetic should be given followed by gastric lavage and general supportive measures.

Drug interactions

Generally no interactions of Polyron Plus have been observed. Iron may decrease the absorption of antacids, tetracycline, quinolone antibiotics, levodopa, levothyroxine, methyl dopa and pencillamine. Folic acid interacts with antiepileptic drugs, no plasma concentrations of Phenobarbital, phenytoin possibly reduced.

Pharmaceutical Precautions

Store in cool and dry place. Protect from light.

Presentation

Polyron® Plus capsule: Both maroon Cap and Body, imprinted with ACI. Each capsule contains Iron 100 mg as Polymaltose complex INN, Folic acid BP 1 mg, Cyanocobalamine BP 25 mcg.

Package quantities

Cartons of 48's capsule in Alu-Alu blister.
